SÉRIE 65 - ENCADREMENT MODULAIRE À FEUILLURE

DEVIS

Les encadrements d'aluminium à feuillure modulaires seront de la série 65 tels que fabriqués par Prévost Architectural et seront composés de profilés de 44,5 x 114,3 mm.

L'aluminium sera de l'alliage et trempe 6063-T5 et sera fini anodisé : clair No. 510, conforme à la norme AA-M12-C22-A31 Classe II (10microns); clair No. 518, conforme à la norme AA-M12-C22-A41 Classe I (18 microns) ou fini anodisé : champagne No. 541, bronze pâle No. 543, bronze architectural No. 546 ou noir No. 549, conforme à la norme AA-M12- C22-A44.

Les éléments des encadrements seront fixés directement avec des vis ou avec des attaches dissimulées de sorte à produire des joints robustes exacts. Toute vis visible sera du type à tête plate et fraisée.
